

QS SCHOLARSHIPS SCHEME

All you need to know about scholarships funded by our partners

How does the US\$7 million add up?

At QS, one of our mission is to help talented people fulfil their potential by offering scholarships funded by QS and securing further scholarships offered by schools, universities and media partners we work with.

Where can you find these scholarships?

Scholarships offered by our partners (schools, universities, etc.) provide the bigger share of the available US\$7 million. You can gain access to the full list of these scholarships only if you register for one of our events and download the QS Events app (available on the App Store or Google Play). There are some partner scholarships listed on our websites (TopMBA.com/scholarships and TopUniversities.com/scholarships); these are the institutions we work very close with.

How can you apply?

1. **Application via the QS website:** If you find the scholarship of the school you want to study at on our websites (TopMBA.com/scholarships and TopUniversities.com/scholarships), you can apply on our website. Most of these schools require you to write and submit an essay, so don't start the application process without having finished the essay. Please note that you **must attend a QS event** to be eligible for these scholarships.
2. **Application via the QS Events app:** If you didn't find your school on our website, download the QS Events app. Please note that you will need the login details you have setup when registering for a QS event to login and see the list of available scholarships in the app. We only reveal information about the application process once you have attended a QS event.

Note: These scholarships are offered by schools, so you will have to be admitted to the school offering the scholarship to be eligible to win.

Is there any other way that I can get support from QS?

You can **WIN 1 of 5 prepaid credit cards worth up to \$500 US Dollars** by completing the QS International Student Survey (<https://www.surveymzmo.eu/s3/90100193/2f67b9b67374>). Each year we're able to produce some of the most thorough, relevant and insightful data on international education trends through surveys such as this. The information you submit is anonymous and will help bridge the gap between excellent institutions and talented students.

We wish you the best of luck with your application!
The QS Scholarships Team
