What I enjoy most about GELI is the teaching staff. They are not only the best at teaching English, but they’re also really good at providing useful study techniques that I will be able to use in my future university studies. The classes, activities and teachers have taught me how to be independent and organised. Without learning at GELI I would have found it really difficult to adapt to the Australian university style.”

Satoshi Horiuchi, Japan

“Studying English at GELI was an experience of a lifetime. The highlight for me was the wonderful teachers who really made an effort to get to know their students individually and took our education personally. Another positive factor has been the place itself. The facilities available to students are modern and really useful for independent learning. Living and learning English in Australia has changed my way of life.”
